As an independent and self-taught web developer and a cyber security enthusiast based in Kerala, I possess good web development skills and the ability to create and manage complex web applications.

I am highly proficient in security tools and techniques, and have a robust understanding of security protocols, with experience in conducting vulnerability assessments.

Demonstrated Commitment to Professional Growth through Continuous Learning of Industry Trends and Emerging Technologies

-- Experience

Nesco IceCream / Web Handler

November 2022- PRESENT, Manikkamangalam, Kaladay

successfully executed my first freelance project by designing and developing a website for a client company.
